INDEPENDENT ACCOUNTANTS' COMPILATION REPORT

To the Board Members of the
Louisiana Professional Engineering and Land Surveying Board
9643 Brookline Avenue, Suite 121
Baton Rouge, Louisiana 70809

We have compiled the accompanying financial statements of the business-type activities of the Louisiana Professional Engineering and Land Surveying Board, a component unit of the State of Louisiana, as of and for the year ended June 30, 2013, which collectively comprise the Board's basic financial statements as listed in the table of contents. We have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

The management of the Louisiana Professional Engineering and Land Surveying Board is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the compilation in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist the management of the Louisiana Professional Engineering and Land Surveying Board in presenting financial information in the form of financial statements without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statements. We did become aware of a departure from accounting principles generally accepted in the United States of America that is described in the following paragraph.

Management has elected to omit substantially all of the disclosures required by accounting principles generally accepted in the United States of America. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Board's financial position, results of operation and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

The accompanying supplemental schedules and information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. We have compiled this supplementary information from information that is the representation of management, without audit or review. Accordingly, we do not express an opinion or provide any assurance on the supplementary information.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report, dated August 13, 2013, on the results of applying agreed-upon procedures.
